GOOD FOR

Pancreas

Endocrine System

Digestive System

SIZE **100 Capsules**

ITEM # **1027**

SERVING **2**

SUPPLY **16 days**

DIRECTIONS FOR USE Take 2 capsules with meals three times daily.

— How the Key Ingredients Work

Pro-Pancreas Formula brings together a carefully chosen blend of time-honored herbs, each selected to support healthy digestion, comfort the urinary tract, and help your body maintain its natural balance. Together these botanicals work gently and holistically, drawing on centuries of traditional use backed by modern research.

Goldenseal — Goldenseal has been treasured in North American herbal tradition for generations. Its key compound berberine has been studied in clinical trials for its role in supporting healthy blood sugar levels and maintaining a balanced environment in the gut and urinary tract, making it a cornerstone of this formula.

Dandelion — Far more than a garden weed, dandelion root and leaf are rich in natural antioxidants and have been shown in a small clinical trial to support healthy fluid balance through a gentle diuretic effect. Dandelion is also a natural source of potassium, which supports overall vascular wellness.

Bearberry — Bearberry leaf, also known as uva ursi, has been used for centuries in both European and Native American herbalism as a urinary tonic. Its active compound converts in the body to provide antiseptic support in the urinary tract. The German Commission E and European Medicines Agency both recognize its traditional use for mild urinary tract concerns.

Juniper Berries — Juniper berries have a long history in European traditional medicine as a natural diuretic, helping the body flush the urinary tract and reduce minor fluid retention. The European Medicines Agency includes juniper in approved traditional herbal combinations for minor urinary complaints, and the German Commission E recognizes its irrigation diuretic use.

Garlic Bulb — Garlic is one of the world's most studied herbs. Its natural sulfur compounds are well-documented antioxidants that help the body defend against oxidative stress. Clinical research also shows garlic supports healthy arteries and circulation, and its antimicrobial properties have been confirmed in multiple studies, making it a versatile addition to this blend.

Licorice Root — Licorice root has been used since ancient times to soothe the digestive tract. Modern research, including randomized controlled trials, shows it can help ease heartburn, support the gut lining, and reduce abdominal discomfort. It is also a key ingredient in Iberogast, one of the most clinically studied herbal digestive formulas in the world.

Slippery Elm Bark — The inner bark of the slippery elm tree becomes wonderfully slick and soothing when mixed with water, and that quality is exactly what makes it so valued for digestive comfort. Clinical studies using slippery elm-containing formulas have shown meaningful reductions in abdominal pain and bloating, and its natural fibers act as a prebiotic, feeding friendly gut bacteria like Lactobacillus and Bifidobacterium.

Marshmallow — Marshmallow root lives up to its healing name — derived from the Greek word meaning 'to heal.' Its rich, mucilage-like compounds coat and soothe the digestive lining, and the German Commission E has approved it for mild gastric irritation. Laboratory studies also show it helps calm inflammation in the gut and supports the body's natural antioxidant defenses.
